Jackfish Lake Municipal Park Winter Access

In order to provide recreational and outdoor activity opportunities to residents the Town of Norman Wells plans on keeping the road to Jackfish Lake Park open until the end of December 2018.

The town's public works department will monitor the road and public notice of the road conditions will be posted on the town website every Friday up until the end of December.

As always, when you are finished with your activities at Jackfish Lake please ensure all camp fires are extinguished and that garbage is placed in the blue receptacle at the front of the park or taken back to town.
