Emerging Wisely Current State: Relaxing Phase 2 – Next Steps

As we head into this beautiful long weekend take advantage of the time to connect with family and friends in safe and socially distanced ways outside.

Jackfish Lake Park

- Please try and keep within your fave five/family groups when up at Jackfish Lake Park. The dock area can get crowded so please practice social distancing amongst adults as much as possible.

Food and Beverages

- There should be no communal food or beverages. It is going to be hot so pack sufficient beverages/cups so that drinks are not shared.

Trash

- Please pack your trash up from the lake and dispose of it in one of the blue garbage bins.
- There are garbage bins located throughout the park. Please use them to dispose of trash.
- This is important for both COVID-19 safety and so we don't attract bears by the food and beverage containers left around.

Lifejackets

- If you are going out on a raft or paddleboard, please take a lifejacket with you. Conditions on the lake can change quickly so please wear or pack one for safety.
- Please return lifejackets to the lifejacket rack at the top of the hill. This allows jackets to dry off between use. It also stops them from getting blown away by the wind.

Road Safety

Please use extra caution this weekend driving to and from Jackfish Lake Park. With the nice weather the road will be busy with cars/trucks and ATV's. A reminder that ATV's must follow the rules of the road.

This weekend would be a great opportunity for parents to review safe driving rules with their young drivers. This includes the use of helmets, following speed limits, driving on the right hand side of the road and not carrying more passengers than the ATV is designed for.
