

Community Update – June 1

Emerging Wisely Current State: Relaxing Phase 1: First Steps

Emerging Wisely in Norman Wells

Town Staff are working hard on ensuring that Town Facilities that are allowed to begin reopening in Phase 1 have all the safety and social distancing measures in place. We hope to be able to communicate opening dates soon.

Indoor Gatherings

Each household can have up to five people they don't live with come over and be inside their house, to a maximum of 10 people in total inside the house at any time. This is required.

It's strongly recommended that in your household, you keep a circle of friends as small as possible. If you're having someone over who's older, has a weaker immune system, or has an illness already, we strongly recommend your house doesn't have anyone else over while they are.

It is also strongly recommended that you keep physical distance of two metres in your house as much as you can to protect each other.

Outdoor Gatherings

Outdoor gatherings will be limited to 25 persons or less – ***with strict physical distancing measures in-place.***

Children 12 years of age and under may engage in outdoor play with one another and are not required to maintain a minimum distance from one another.

Hand Washing

When returning home, whether it is from visiting friends/family or your children from playing with their friends or in the playground make sure that hand washing is the first thing done.
