

Community Update – May 29

Emerging Wisely Current State: Relaxing Phase 1: First Steps

Meet & Tidy

Thank you to all of the community members and organizations who came out today and participated in the town clean up. Together we collected 120 bags of garbage! Thank you to Town Council and staff for the delicious BBQ. There were also lots of winners, check Facebook to see if your name was drawn. Our beautiful community was the real winner as it looks neat and tidy heading into this beautiful weekend. Let's work hard to keep it that way. Cans and garbage belong in garbage bins, not on the side of the road.

Solid Waste Management By-Law

While you were picking up your drive through BBQ lunch we hope you had a chance to pick up a copy of our draft Solid Waste Management By-Law. You've probably noticed that we have been promoting it a lot. That is because community input is essential. Our landfill is nearing the end of its lifecycle and the Town has to make some big decisions on how we move forward. We want to know what you think and what your ideas are as we begin this process. By-Law packages can be picked up that Town Office or give us a call at 587-3700 and we would be happy to get one to you by email or by dropping a copy off.

Bandy Lake Picnic Area

The new Bandy Lake aka Pizza Hut picnic area will be closed this weekend. There is a lot of water flowing and HRN has advised us to close it while they continue to work on the issue. Please avoid this area.

Emerging Wisely in Norman Wells

A reminder that we are still in Relaxing Phase 1. That means we still need to abide by the rules set out by the Chief Public Health Officer for social distancing and limiting our interactions outside of our Fave Five. Don't forget to continue to wash your hands each time you come home.

Have a happy and healthy weekend and enjoy the beautiful weather.
